AM 19. NOVEMBER 2012 UM 17 UHR C.T.

IM GROßEN HÖRSAAL

THE PHYSICS OF FOAMS

PD DR. BJÖRN SCHELTER

PHYSIKALISCHES INSTITUT

UNIVERSITÄT FREIBURG

Everyone has witnessed a fascinating but mundane experiment. When pouring a bottle of beer, a foam is quickly formed. If one waits long enough, structural changes can be observed. In this talk, the physics of foams will be introduced. Both structural and dynamical aspects will be addressed.
