

PHYSIKALISCHES KOLLOQUIUM

AM 09. MAI 2011 UM 17 UHR C.T.

IM GROßEN HÖRSAAL

**DID GOD HAVE A CHOICE WHEN HE CREATED THE WORLD?
(EINSTEIN)**

PROF. DR. JOCHUM VAN DER BIJ

*PHYSIKALISCHES INSTITUT
ALBERT-LUDWIGS-UNIVERSITÄT FREIBURG*

Einsteins question aims at the idea that the fundamental laws of physics are in some sense the unique possible ones. I will discuss this proposition in the light of some recent developments in phenomenology, cosmology and mathematical physics. A partial and tentative answer will be given.
